

AdventHealth New Smyrna Beach

Fast Facts 2019

CARING FOR OUR COMMUNITY

AdventHealth New Smyrna Beach has 112-beds and is one of the six hospitals in Flagler, Lake and Volusia counties that composes the AdventHealth Central Florida Division - North Region. Formerly known as Florida Hospital New Smyrna, the organization's parent company changed the name of all wholly-owned entities to AdventHealth on January 2, 2019.

Based in Altamonte Springs, AdventHealth is a connected system of care. With more than 80,000 team members, AdventHealth is one of the nation's largest faith-based health care systems with nearly 50 hospitals and hundreds of care sites in nearly a dozen states.

With the mission of Extending the Healing Ministry of Christ, AdventHealth New Smyrna Beach provides whole person care to heal the body, mind and spirit.

HISTORY

New Smyrna Beach's first public hospital opened in 1954. The 20-bed, red brick facility known as Fish Memorial Hospital was established by funding from the Bert Fish Testamentary trust founded by Judge Bert Fish.

In April 1974, a new replacement facility opened with 74 beds, 16 bassinets, two modern operating rooms, a delivery room, emergency room and a four-bed Intensive Care Unit.

In 1996, approximately 60,000 square feet of space was added to expand the cancer and surgical services.

In April 2016, Bert Fish Medical Center became part of the Adventist Health System and was renamed Florida Hospital New Smyrna.

In January 2019, the hospital was renamed AdventHealth New Smyrna Beach.
